

COUNCIL PLANS SPECIAL TRAIN TO QUEEN'S

CERCLE FINDS DANCING TO BE IMMORAL

Affirmative is Victorious in Well Fought Debate
"JAZZ IS BASE"

According to Freudian Psychologists Dancing is Wrong

Last night the Cercle Francais held its second meeting for the session. The feature of the evening was the debate on the question of the immorality of dancing. The affirmative which was upheld by Bogante of Arts '26 and Puddicombe of Law '26 was declared by the judges to have triumphed over the negative as presented by Mousseu of Law '27 and Helal of Law '28. Bogante opened the debate for the affirmative. In his attempt to prove that dancing was immoral he quoted from an archbishop, a cardinal, and a pope. He referred to the sorry state of affairs in those places, where dancing has become a mania. An authority on which Bogante relied much was the Freudian school of Modern psychology. His contention in short, was that dances are entirely base in their practice, as is particularly proved by the frankness of such dances as are comprehended by the term "jazz". He spoke resolutely and with force, making every word tell.

Helal attempted to refute Bogante's arguments. More than this, he introduced several new points, such as, the elevating effect of the dance in general. Puddicombe spoke in the second place for the affirmative. He did not deal with any of Helal's points, but rather confined himself to some of the things brought forward by Bogante and the announcement of the social-logical fact that criminals are constant habitués of the dance hall. Although he admitted the element of beauty in the interpretive dancing of Pavlova, he deplored the degrading depths to which the dance, as practised by the people, has been carried on this continent.

Mousseu then delivered an address for the negative side of the debate. He stressed especially the fact that dancing is condoned and even practised by those who set the moral standards for society, namely the teachers and directors of the university.

Bogante replied to the arguments of Helal and Mousseu in his rebuttal for the affirmative. He showed how his original contentions had remained unshaken, and he stressed for a second time the importance of the chain of arguments for the immorality of dancing based on the results of Sigmund Freud and the modern psychologists in their investigations regarding dancing and its relation to sex.

The judges went out and did not re-enter the chamber, in which the debate had been held, for some time. When they came back, having finally concurred in a decision, Professor Messac made the judges' address, announcing that the debating had been well done from the point of view of the judges, who, however equal the speaking abilities of the debaters might be, the nevertheless felt constrained to present the palm to the affirmative, which had won on debating points.

Professor Villard and Messac and

M. WEILL TO ADDRESS ALLIANCE FRANCAISE

Felin Weill, Secretary of the Alliance Francaise in Canada and the United States will address the local branch of the Alliance on "La Littérature et les Provinces Françaises", at the second reunion of the season, to be held at the Ritz Carlton Hotel, on Wednesday, Oct. 29 at 8.15 p. m.

Professor Villard of the French Department has tickets for any students who wish to attend.

MENTAL TESTS FOR BAYLOR STUDENTS

Mental ability of students will be checked from three different angles in Baylor after this year, according to the new methods installed by Dean Sims Allen.

High school grades, college grades by the term, and the results of the mental tests will be kept together on records in the Dean's Office.

Pass Or Not
 From this record teachers, who find that students who are not doing passing work can discover whether the student can not do the work, or is lagging on the job. The teacher will know how much pressure to bring to bear on the student so as to get the best result from him.

By this record it will be possible after a student has been in the university several terms, to tell men and women whether they have opportunities in the professional world, or must remain in the simple mechanical side of it.

The psychological mental tests scores will be recorded within the next few days. The grade will be assured from the test given to the freshmen.

The Tests
 The tests were given in three parts. All parts being very much the same thing. Sentences were given with blanks to be filled out. Such as: A student should strive to correct of for if he acquires

Mr. Roche gave their opinions on the subject of the evening, after various views had been expressed by individual members. The discussion seemed to rest on what Helal had said regarding dancing as an evil only in the same way as card-playing for money is an evil. He had stated that dancing is no more necessarily harmful than is card-playing, since the matter is quiet subjective. Honi soit qui mal y pense. This seemed to be the favorite view of the assembly.

Professor Villard announced a meeting of the Alliance Francaise, which will take place to-morrow evening in the Ritz Carlton Hotel. He invited all members of the Cercle Francais.

The president of the Cercle, Millington, announced that the first joint meeting with the Societe Francaise would take place on November 17, in the R.V.C. There will be a debate, the subject of which is under consideration, and a dance.

The next meeting of the Cercle Francais will be at 8.15 o'clock on the evening of Monday, November 3. It will be held in the Music Room of the Union. All members and prospective members of the Cercle are invited to come. A debate will take place, the subject of which is: "Resolved that Professors are Indispensable at the University."

ELECTIONS FOR THE UNION HOUSE

Will Take Place To-morrow From 9 A.M. to 5 P.M.

It is expected that amongst Science, Dentistry, and Arts students there will be the great activity to-morrow when the elections of faculty representatives to the Union House Committee will take place. A two man contest will be staged in both Arts and Dentistry while five men will run for two positions in science.

Electroceasing propaganda in the form of posters are being displayed in prominent places around the various buildings and a great deal of enthusiasm has been aroused especially in applied science.

The union expects to have a very successful year. The informal was a decided success both from a financial and social point of view.

The Union aimed to be of service in the past—a common meeting place for McGill Students of all faculties, and it is to be hoped that those elected tomorrow will be as successful as those who have served on the committee in years gone by.

ANNUAL CONVERSAT TO-MORROW NIGHT

Large Crowd Expected at Popular Event

Tomorrow night the Strathcona Hall will be suitably decorated in a Halloween fashion. The chief reason for this festive appearance is not Halloween but the Conversat which has been looked for, for sometime.

For men and women who have enjoyed the Conversats in years gone by no word of description is required. Perhaps some explanation of procedure will be welcomed by the students of the first year, however, and as this Conversat was designed especially for them it is felt that they should be enlightened. The easiest way to describe the Conversat is to say that it is the same as an informal dance with the only difference that conversation takes the place of dancing. The chaps and the girls wear name cards, and in addition there will be an acting introduction committee, and if anyone wishes to get acquainted with anybody in particular he will find no difficulty in doing so.

A strong delegation from R. V. C. will be present as well as several members of the staff, who will welcome the crowd and make everyone feel at home.

The entire undergraduate body but especially the men and women of first year are invited. Refreshments will be served and there will be a number of musical selections and novel forms of entertainment. In short it is an open party where freshmen and freshmen are given an opportunity of getting to know each other at the beginning of the social year.

GAOL STUDENTS FOUND AT CLOSED PARTIES

Michigan—University of Michigan students who are caught attending the closed college parties of the Michigan State Normal College at Ypsilanti will be arrested, and after their release their names will be turned over to the university discipline committee for further action.

..... methods he will strive to change. Some of the words which the freshmen were asked to define are: behemoth, suffragan, mileteer, and scabard.

Words were given with a long list of other words following it amongst which the direct opposite appeared. The freshmen were to choose the word. An example is: Although, yet find the opposite in this list: yet though indeed, now whence.

The fourth part of the test was a type of proportion in words, and: Cherub—Cherubim; Angel (heaven angel), wings, spirit (angels). The fifth part of the test in the first division consists of mathematics. Such question as, what number added to 1-2 equals for times itself, were asked.

The freshmen were given 30 minutes to answer 50 such questions as have been given above, then another sheet of 50 similar questions were given them to answer in the next 30 minutes.

LARGE NUMBER TO SEE QUEENS GAME

Arrangements Are Now Complete for Special Train

The game at Kingston on Saturday has aroused much interest in undergraduate circles and a large number is expected to attend the game. Among others Sir Arthur Currie and Colonel Bovey expect to travel to Kingston and it has been decided that a band of twenty-seven instruments will accompany the players.

The cost of the trip has been reduced to a minimum and a special train has been arranged for, provided at least one hundred non purchase tickets. If however for any reason the special train does not run, the tickets will be accepted on a regular train. The idea of the special train is a distinct advantage, since it will leave and return at an hour most suitable to those attending the game, and will eliminate the change at Kingston Junction.

Special arrangements are being made for entertainment of the students and a dance will be held after the game. In all the trip will most assuredly be a delightful one and if the team receives whole-hearted undergraduate support the chances of defeating the Presbyterians will be most promising.

DISCUSS CLAUSES OF CONSTITUTION

Approve of Changes Made in R. V. C. A. A.

The first four clauses of the proposed new constitution of the R.V.C. Athletic Association were approved at a meeting of the society which took place yesterday in the Common Room.

This was the first of a series of meetings which is to be held in connection with the revision of the constitution.

A copy of the new Constitution as drawn up by committees from the R.V.C. A.A. and the M.S.P.E. has been posted on the R.V.C. A.A. notice board, and the president urged all members of the society to give this matter their consideration, as there is likely to be more discussion on the remaining articles than there was on those brought before the meeting yesterday.

The R.V.C. Athletic Association is in future to comprise all those who pay the universal fee to the Women Students' Society. Members are to be divided in two groups, one for the M.S.P.E. and another for all other women students. There is to be a president and a secretary-treasurer for the whole Society, and each group will also have its own vice-president and secretary-treasurer.

It is hoped that the revision of the constitution will be completed in two or three more meetings.

"DADS' DAY" CELEBRATED AT U. OF WISCONSIN

Wisconsin—The Daily Cardinal staff put out a special edition of the school paper in honor of "Dads' Day" which was held Saturday, October 18. The program for the day as arranged by the Student Council included inspection tours, cross country races, the Minnesota-Wisconsin football game, an informal reception, and a father-faculty dinner.

WOMEN COLLEGES TO HOLD CONVENTION

Kentucky—The annual convention of the deans of women of approximately 20 colleges will be held the last of this month on the university campus. The general subject for discussion will be "Citizenship."

\$9.20 will send you to Kingston and bring you back.

STUDENTS' DIRECTORY.

In preparing the Students Directory it will be necessary to obtain the address and telephone number of each student. Everyone is therefore asked to fill in the lists which are in the hands of the class executives, immediately.

ECONOMICS CLUB MEETS TO-NIGHT

Australian Speaker to Address Meeting—Papers to be Read

The Economics Club will meet to-night for the first time this year. The meeting will take place at 8.15 in the smoking room of the Arts building and the program promises to be an extremely interesting one.

Professor Leacock expected to introduce Professor H. Henton, the noted economist of Australia to the club. Professor Henton is lecturer in Economics in the University of Adelaide and is an M. A. of the University of Leeds. He is also the author of several well known books on historical economics and on Australian labor problems.

Apart from this, two papers will be read on the coming election in England. These will be delivered by Mr. C. D. Everett and Mr. Reich both of whom have followed the events in Great Britain closely and have given a great deal of thought to their subject.

After the presentation of these papers the meeting will be thrown open for discussion. As several members of the staff of the Economics department are expected to be present the discussion should be of unusual interest.

The program of speeches for the year will probably be drawn up at this meeting. The following are the officers of the club:

Hon. Vice President:—Dr. Hemmion.
 President:—G. Nairn
 Vice-President:—E. Forsey
 Treasurer:—Sheppard.

EDWARD P. CAUSE OF LACK OF ATTENDANCE

Northwestern—Ten-thirty classes suffered a great loss last Friday morning. No one seemed interested in attending them because of the Prince of Wales passing through Evanston at that time. The students waited for an hour to see him ride by. In two short minutes he had disappeared around the corner, leaving behind him the greatest "thrill" that the Northwestern students had had for years.

FUTURE JOURNALISTS WRITE FOR WEEKLIES

North Dakota—All students in the department of Journalism are required to correspond with weekly newspapers of the state and send them news items as their practice work in the course.

A special train to Kingston—be one of the passengers.

MR. MOHMANS WILL COACH ROWING CLUB

Prospects for Coming Season Exceedingly Bright

A very important announcement was made yesterday afternoon at the combined meeting and practice of the McGill Rowing Club when Dave Logan, the president informed the members that the club had secured the services of Mr. Mohmans as coach. The rowing Club has been particularly fortunate in this respect, as Mr. Mohmans is a celebrated rowing coach and has had experience with several European Championship crews.

The turnout was large and the enthusiasm of those present augurs well for the success of the coming season. The committee has arranged an excursion to the Clubhouse at Lakeside next Saturday, which will cost the members the small sum of sixty five cents for railway fare.

All members who have not as yet handed in their names, and intend to make the trip are asked to do so as soon as possible to any of the three following men:—A. Macnaughton, Walnut 1576, J. Howie, Walnut, 0133, and Dave Logan, Westmount 0797. Further plans and details concerning the excursion will be published soon. As yet a schedule for coaching hours has not been drawn up, but will be announced at an early date. All those interested are requested to watch for its publication.

COLUMBIA COACH DIES WHILE DRILLING TEAM

Percy B. Haughton, head football coach at Columbia University, founder of the famous "Haughton system" at Harvard and generally regarded as one of the foremost exponents of the gridiron sport, died yesterday afternoon at St. Luke's Hospital, New York, at five o'clock, one hour after he was stricken with acute indigestion at Baker Field, while directing the work of his squad.

His sudden death came two days after the Columbia eleven had administered a crushing defeat to Williams College, which was taken as proof by critics that Haughton has installed a football system at Columbia destined to rival his former success at Harvard, where his teams from 1903 to 1916 ranked with the best in gridiron history.

OKLAHOMA STUDENTS WILL RECEIVE LOANS

Loans amounting to a total of more than \$3000 to self-supporting seniors in the university were approved by the board of directors which administer the funds of the Oklahoma Student Loan Aid Association. The amounts of the various loans range from \$50 to \$200. They are to be repaid in one year with five per cent interest. The budget as outlined by the president shows that the state legislature will be asked to appropriate \$2,445,245 for the year 1925-1926. Women's hockey teams are making plans for the biggest hockey tournament in the history of women's athletics at Oklahoma.

INDIANA DRAMATIC CLUB TO STAGE PLAY

Owing to the work of the newly formed dramatic board of control, it is hoped that the former congestion for the use of the assembly will be eliminated. Even more dramatic productions than were given last year

CHESS CLUB PLANS YEARS' ACTIVITIES

Elimination Tournament is Now Taking Place

The Chess Club, held a meeting last evening in which a great deal of enthusiasm was shown for activities of the coming year. The business centered around a few points concerning the entrance into the Montreal Chess League, practice hours, and membership fee for the coming year.

It was decided to have a combined practice and meeting hour which was fixed for Mondays at five o'clock. On Tuesday Nov. 4th at 8.30 o'clock a match game is scheduled against Ber-ville. The elimination tournament will begin immediately, after which tournament games will begin.

A fifty cent fee was considered adequate to meet the financial needs of the club, especially since the club membership is increasing. It is also expected that a match game between the professors and students will take place shortly the exact date of which is left for the decision of the committee in charge.

CAL VIN COOLIDGE IS HARVARD'S FAVOURITE FOR U. S. PRESIDENT

Sweeping the University even more completely than Harding did in 1920, Calvin Coolidge, the republican nominee, in the "Crimson" straw vote recently at Harvard led Davis more than two to one, what was the most thorough poll on presidential nominees ever taken in the University. Coolidge polled 2573 votes, Davis received 1200, and La Follette, 789.

Since the vote represents sentiment from every state in the Union and has such a general republican tinge, it would seem to indicate a large majority for Coolidge carried every department of the University and was not even pressed by Davis except in the Law School which gave Coolidge 329 out of 708 votes, and Davis 251. This year Coolidge polled 51.1 per cent of the total vote cast while in the Crimson poll of 1920, the year of the republican victory Harding polled only 52.7 per cent of the total vote. Coolidge received his largest proportionate vote among the Faculty members who gave him 275 out of 337 votes or 71.1 per cent of the total Faculty vote. He likewise ran high in the Business School, where La Follette was weakest.

The Wisconsin candidate led Davis in only one department, the Theological School, which seems to have a strong dislike for Democratic nominees. In the Crimson's straw vote of 1920, the total number of ballots cast was 2030. These votes were distributed among the five men on the ballot, as follows: Harding, 1075; Cox, 805; Davis, 119; Christensen, 24; and Watkins, 9. Four years ago the Republican candidate had 52.7 per cent of the total vote and his Democratic opponent 39.6 per cent. This year the Republican majority has risen to 55.1 per cent of the total, while the Democrats have fallen to a 26.2 per cent vote. The loss of the Democrats this year has gone into the making of the big third party vote, which this year reached 17.2 per cent.

WORK HARDER FOR DEGREES IN EUROPE THAN IN AMERICA

That doctor's degrees could be bought at so much, each in Germany, as stated in a recent newspaper report, was denied by Dr. Erwin G. Guddé, of the German department of the University of California.

According to the report, as applicant has only to write a thesis of forty "typewritten pages and send a certain sum of money to a "Prof. L. Duffort, docteur es lettres" of the "Oriental University of Washington District of Columbia, U. S. A." at Lucerne, Switzerland. The amount of money sent determines whether the degree will be that of a doctor of medicine of chemistry, or of just "plain learning."

According to Doctor Guddé, degrees are not recognized in Germany unless they are from one of the leading universities, among which the famous

ulous "Oriental University" is not numbered. In fact Germany is perhaps more particular concerning the authenticity of diplomas than most countries. Many American students who have received their degree in small universities or in private colleges would not be recognized as qualified doctors in Germany. Neither can a student take a correspondence course as part of his preparation for his degree.

Because of these strict rulings, Doctor Guddé claims that a sale of degrees could not be very extensive in Germany, although it might be in other European countries. A few people might try to obtain prestige by buying a college degree and have the right to sign letters after their names, but they could not build up a practice without the sanction of an officially recognized university.

M.A.A.A. WINS SENIOR WATER POLO GAME

Red and White Poloists Put Up Stiff Fight

SCORE 4-3

Winning Goal Scored in Dying Moments of the Game

Playing their first game of the season at the K. of C. tank at 8.15 last night the McGill Senior Water Polo Team went down to defeat before the powerful M. A. A. A. squad. When the final gong sounded the red and white players stood at the short end of a 4-3 count.

As the score indicates the teams were very evenly matched and the college team with more practice should be in a position to make a strong bid for championship honours this season.

The game opened with M. A. A. A. attacking. Williams saved a warm shot, and the ensuing scramble in front of McGill net, resulted in a score for the Red and Blue team. The Winged Wheelers continued to give Williams a warm time of it but a long pass to Parsons evened the score. Play swung rapidly from end to end till M. A. A. A. scored on a penalty goal, making the count 2-1 in their favour. In spite of the hard attacking by both teams the score was unaltered at the close of the first quarter.

The second quarter continued fast and furious with Duolos, the M. A. A. A. goaler making some brilliant saves of Moore's wicked hammering.

The second quarter ended without further score.

Hard play marked the opening of the third quarter and M. A. A. A. scored on a long shot increasing their lead 3-1. Moore soon found the nets with a shot that completely baffled Duolos. Parsons tied the score with a hard shot. Then, with Monro on the penalty bench M. A. A. A. added a goal to their credit just before the whistle ended the game. The final count was M. A. A. A. 4-McGill 3.

The college team as a whole put up a good brand of polo. Moore McLaren and Adams turning in especially fine exhibitions.

The line up was as follows:—

M. A. A. A.	McGill
GOAL	
Duolos	Williams
GUARD	
La'dley	Munro
Brooker	Moore
CENTRE	

CORRECTION IN HANDBOOK.

In the McGill Handbook, the Intercollegiate B. W. and F. meet at Toronto is announced for Friday, Feb. 13, and Sat., Feb. 14.

This should be corrected to Friday, Feb. 27, and Sat., Feb. 28, by everyone.

EXCELLENT SCORES AT MCGILL RANGES

Strong Team to Represent McGill at Meet

The McGill Rifle men rose early Sunday morning and 8.45 saw most of them ready to leave Strathcona Hall for the ranges. Others followed on a later car and helped to fill the open spaces of Point aux Trembles with the noise of no mean bombardment.

The new aperture sights were installed and judging by the scores turned in by the sharpshooters, these will be of great assistance as soon as the men become familiar with them. The 200 yard targets were in a dangerous position, for Emmons, Hunter, Manville, Reid, Dowbridge, Lyons, Pope, Herbert, Pete, Roe, Patton, Verxa, Taylor, and McEae each found them for over 30 points.

Back at the 600 yard line there were a number of good scores. In spite of lack of practice by the newcomers, and Hunter, Pope, Pete, and Dowbridge climbed over the 30 mark. Hunter, the old reliable, though at first a bit out of form, came back and piled up a 64 point total at the two distances.

The weather was perfect and those who were not taking advantage of these Sunday outings are losing much real keen enjoyment, besides passing up the chance to help their Alma Mater retain the big cup. The intercollegiate shoot is to be staged very soon and all are urged to turn out whenever an opportunity is offered and get their eyes and nerves steadied, especially for the longer distances.

Charlton	Moore
FORWARD	
Power	Parsons
Rodger	Adams
The following is the schedule for the coming games.	
Mon. Nov. 3. McGill vs M. S. C.	

BOXING CLUB OPENS YEAR'S ACTIVITIES

First Work-out To-night at 5 p.m.

COACH ROBINSON

Plan to go Back to Old System of Inter-Association Smokers

The Boxing Club will start its activities to-night at 5 p.m. in Molson's Hall. Coach Robinson, who has been with the club for the past three years, is back again, and everything points to this being a banner year in McGill boxing.

An extensive program has been planned for this season. The club is going back to its old system of having inter-association smokers with some of the prominent athletic organizations of the city, such as possibly the M. A. A. A., National, Verdun and St. Bridgids. This will give the more experienced boxers a chance to round into form before the college championship comes on. Another feature will be the staging of a green tournament, in order to give the less experienced men an opportunity to show their worth against someone of their own ability.

It is particularly desirable this year to get as many new men out as possible. It is not a question of turning out and getting "killed" but of taking a course of lessons in the many art. As Coach Robinson is renowned over the country for his ability to teach beginners, as well as for his ability to coach the more experienced, this is a real chance for everyone to learn something worth while. Athletic attendance will be given to all participants.

It is hoped that most of the old-timers will put in an appearance to-night. An early start and consistent training will do lot to win back the intercollegiate championship which we lost last year. The Toronto boys have been working hard for the last month and will take some beating.

The following are asked in particular to be present.

S. Schleifer, Andre Leveque, Bernstein, C. Bain, Bill Adams.

Wed. Nov. 12. McGill vs M. A. A. A.	
Mon. Nov. 17. M. S. C. vs McGill.	
Mon. Nov. 24. C. P. R. vs McGill.	
Thur. Dec. 4. Y. M. C. A. vs McGill.	

CORRESPONDENCE

The Daily is not responsible for sentiments of letters published in the correspondence columns. Signed communications from graduates, undergraduates and members of the faculties will be placed in print if they are not of too great length.

Correspondents are requested to observe the unwritten law of the newspaper office—that they write upon ONE SIDE of the paper ONLY.

No communication will be admitted in this column without the name of the writer being attached, not necessarily for PUBLICATION.

The Editor,
McGill Daily;

Dear Sir:—Nothing is more welcome in University circles than humour, and it indeed augurs well for our future when a genuine contribution to mirth, such as the Medieval Tournament at the McGill-Queen's game, is followed by the even funnier contribution submitted yesterday of your Correspondence Column by Mr. J. M. C. Duckworth.

Had the casting committee been aware of Mr. Duckworth's gift in this direction we are certain a part could have been offered him on Saturday's production. Judging from the tone of his letter, we are of the opinion that the role of "Deus ex machina" would have been admirably suited to his qualifications. We picture him invoking shame and ignominy upon the unfortunate Ladye and her Knight with one hand, and with the other, graciously thanking the Rooters Band. Whatever spare time his part allowed him would be spent in blessing the R. V. C. collectors and the obliging whippers, and in atoning, by an appropriate "Benedictus", for the breaches of blue laws and etiquette that characterized the activities of the Round Table. And finally, as a fitting climax to a noble effort, a band of carefully selected Seraphim and Cherubim would effect his exit to the sound of the cornet, flute, harp, sackbut, psalmtery and dulcimer and all kinds of music.

S. D. PIERCE
G. B. PUDDICOMBE

The Editor,

McGill Daily;

Dear Sir: In connection with the lack of seating accommodation in the rooters' stand on Saturday, would it not be possible to follow the same arrangement as the M. A. A. A. do at Interprovincial games? That is to say would make all the sections of the grand stand behind the goal line rush seats.

I have always thought it strange that people were expected to pay \$1.65 for seats at either end of the grand stand, when for \$1.10 they could secure much better seats on the twenty or even thirty yard line in the rooters' stand, for the game can be watched equally well from either side of the field.

Unless some arrangements can be made whereby the rooters will find sufficient seats for themselves on arrival at the stadium, I am afraid that it will be a difficult thing to induce students to parade up to the field at the Varsity game.

Thanking you for your valuable space I am,

Yours truly,
FRANK M. GODINE.
ARTS '26.

The Editor,

McGill Daily;

Dear Sir: I wish to second the stand taken by Mr. J. M. C. Duckworth of Arts '27 with regard to the questionable burlesque which was staged at half-time at the football game on Saturday. I remember with shame that I chuckled inordinately during the performance, but did not, at that time, see the indecency of the thing. When I think of the many delectably-raucous children of Montreal—who came over the fence, no doubt—who witnessed the degrading spectacle, and whose unformed minds might be corrupted, I blush with regret that I did not take this attitude earlier. I am taking this opportunity, Mr. Editor, of making this public confession and hope that, in part at least, it will make amends for my previous delinquency. I am,

Yours truly,
REPENTENT.

DENTAL PLAYERS NOT PHYSICALLY EXAMINED

The many followers of intercollegiate rugby at McGill were disappointed yesterday afternoon when the game scheduled between Medicine and Dentistry was not played. This was due to the fact that several men on the Dentistry team had not been physically examined and on account of this negligence were not eligible to play.

The Band is going to play—you can help by rooting.

C. Fullerton, J. M. Sharpe, H. Baxter, Steine, Mulligan, V. Snow, Sullivan "Buck" Green, Rankin, Merritt, D. Neel, D. Marshall, MacLeod McLean, Ham.

CONSOLAT'N ROUND WON BY E. CAMERON

R. V. C. Inter-Class Tennis Has Been Started

Yesterday, the victor in the R. V. C. First Consolation Tournament finals—for those who were beaten in the first round—was Eileen Cameron, R. V. C. '26. Miss Cameron played against Irene Allen, also R. V. C. '26, and won in straight sets, 6-0, 6-1. Although the score balances greatly in Miss Cameron's favour, the games were very closely contested, the score running to duce several times.

The second Consolation Tournament—for those beaten in the second, third and fourth rounds, is nearing its finish, and the Inter year Tournament has already begun.

Yesterday, Miss E. Cochrane of second year, played Miss B. Carter first year, but unfortunately they were unable to finish owing to darkness. It is expected that they will resume the tournament to-day. It is hoped that the various tournaments will be completed as soon as possible while the fine weather continues.

ARTS RUGBY TEAM WORKS LIKE MACHINE

The Rugby enthusiasts of the faculty of Arts held a good practice on the campus this afternoon. Although the whole team did not turn out, as was expected, nevertheless there were enough out to make the practice a very successful one.

Quarterback Gammell put his team through a stiff signal practice, not stopping until darkness put an end to the play. The team works now like a well-oiled machine and the mistakes they made are few and far between. The booting of Bill Gardener is all that could be desired and he seems to have improved since his last appearance.

A stiff fight is expected this Wednesday when the Arts team meet the strong Commerce aggregation. There is little to choose between these teams and as the loss of a game to either of them practically means the loss of the championship it is certain that they will put all they have into the struggle.

WRESTLING CLUB HOLDS WORKOUT

Grapplers Meet at Strathcona Hall—Promising Material Turn Out

The first regular workout of the Wrestling Club was held yesterday afternoon at five o'clock at Strathcona Hall.

The good turnout and the enthusiasm of the men serves to show how great the interest in wrestling has become at McGill.

Most of the old standbys of the club were there as well as some very promising new material. Mr. Smith the coach in a statement to the Daily stressed the desirability of all men turning out early. This applies to the experienced men as well as to the new members of the club. He commented on the encouraging appearance of many of the recruits but added that he would like to see more men at the practices.

None of the harder movements were taken up, Mr. Smith deciding that it would be better to break the men in gradually to the more advanced work. In connection with this year's wrestling team the coach's remarks were most optimistic and though Varsity won B. W. and S. meet last spring it will be through no weakness on the wrestling team if they repeat this performance this season.

The Wrestling Club meeting every Monday and Wednesday offers unusual opportunity for men to get a thorough knowledge of the art under an expert instructor and the fact that the coach is starting his men from the beginning means that every undergraduate has a chance.

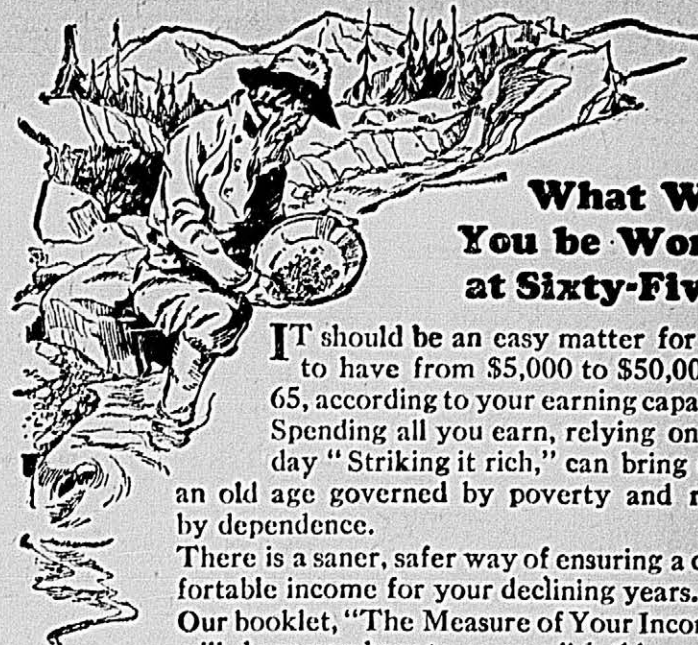

COMMERCE PREPARE FOR GAME WITH ARTS

The Commerce Rugby team held the best practice of the season to-day at three o'clock on the campus. Captain Keelan, the quarterback of the team put his men through all their signals in order that they might be well primed for the game against Arts on Wednesday. The whole team were in the best of condition and showed a decided improvement in all departments of the game.

The backfield is especially strong and Arts must watch their step if they expect to stop this powerful aggregation.

The kicking of Lohan was just as good if not better than usual. He was booting them high and far, allowing the wings to get down under his punts.

Wednesday, Arts and Commerce meet and all indications point towards an exciting contest for both teams are strong and evenly matched and can be depended upon to stage a battle royal.

What Will You be Worth at Sixty-Five?

IT should be an easy matter for you to have from \$5,000 to \$50,000 at 65, according to your earning capacity. Spending all you earn, relying on one day "Striking it rich," can bring only an old age governed by poverty and ruled by dependence.

There is a safer, safer way of ensuring a comfortable income for your declining years. Our booklet, "The Measure of Your Income," will show you how to accomplish this.

Ask for a copy.

The Noon Jam

TO enable the staff to cope with the Luncheon rush at one o'clock each day I have prepared to serve a special 30 cent Luncheon in the Grill Room. Unless a student has a meal ticket to be punched it will be necessary for him to buy a 30 cent ticket from the Porter in the Tuck Shop, and present it in the Grill Room. No money will be accepted on this side. I expect this arrangement will relieve the daily traffic tie-up. Here is the menu.

Grill Room Luncheon. 30 Cents.

Venison Stew
Mashed Potatoes.
Creamed Carrots
Red Currant Jelly
With Whipped Cream.
Coffee—Tea—or Milk.

Pull a Good One When You Write—or Lend
A Pen You Need Not Apologize For Never Failing—Never Ailing
With a Jewel-Smooth 25-Year Point No Style of Writing Can Distort
OWN the black-tipped lacquer-red classic pen with which Success associates. A shapely balanced pen that will help you give the world the kind of impression you are capable of creating by a rapid, characteristic hand.
A pen you can pull out in public, and lend without a tremor, knowing that the other man's style of writing can't alter the point one particle.
A pen with a jewel-smooth point that's guaranteed, if not mistreated, for 25 years' WEAR. Hence the most economical pen you can buy.
A pen you can fill by simply pressing a Button that is capped inside the barrel where it doesn't mar the beauty or catch on the clothing. A clean pen to carry and handle on account of the Ink-Tight seal achieved by the "Lucky Curve" feed and the double sleeve of the Duo-Sleeve Cap.
Any good pen counter will sell you this super-writer—fashioning plain black, or black-tipped lacquer-red, the color that makes it hard to mislay.

Safe Travel By Dirigibles Foreseen By Noted Explorer.
"Within 10 or 15 years travel by dirigible will be as safe as travel by sea," said Vilhjalmur Stefansson, noted Arctic explorer, in an interview recently with the McGill Daily. Mr. Stefansson based this contention largely upon the fact that the greatest opposition that has been raised against the giant air crafts had been raised from fear of wind storms.
"There is absolutely no additional strain on the structure of a dirigible when caught in a wind storm, the only possible difference is in the speed of the ship," he said. "A steamer at sea is held back by the water when the wind hits it and there is a great strain on the structure, but this is not the case with the air craft," he added.
Stefansson was the first man to begin a systematic campaign for the establishment of world air routes. He first suggested the idea in 1922, to the Canadian government, by which he was employed at that time. He continued his suggestions until, seeing that Canada would do nothing he published in the August, 1922, number of the National Geographic magazine an article called "Trans-Arctic Commerce by Air." His suggestions at that time were essentially the same as those made at a later date by Rear Admiral W. A. Moffett.
"When asked about the practicability of Arctic air routes, Mr. Stefansson said, "In crossing the Atlantic you compete with steamers; in crossing the Arctic there is no competition." He explained this statement by a striking example:—
From London to Tokio by way of New York, as it is now done, takes at least three weeks, and this with the best possible connections. It would take a dirigible, using the same route, 10 days. A dirigible following the trans-Siberian railroad could make the trip in eight days, but there would be the omnipresent danger of crossing the mountains. A dirigible going north through the Arctic would encounter no mountains, would have as good or better flying

LOUISIANA STATE U. PLANS "DADS DAY"
A party of Arkansas students, including Governor-elect Terral and President F. C. Patrell of the University of Arkansas will come to Louisiana to inspect the new plant of the State University. It is thought that Arkansas is planning the erection of an educational plant similar to the new university and ideas are being sought. The sophomore class is fostering the plans for the first "Dads Day" at L. S. U. Every student's father will be asked to come to the campus for a two-day visit, culminating in attendance at the Tulane-Louisiana game Thanksgiving Day.
See that you are among those going to Kingston.
GRID-GRAPH ELECTRIC SCOREBOARD INSTALLED
Texas—The famous Grid-graph electric scoreboard, which has been installed at the men's Gymnasium is said to be one of the greatest electrical devices ever produced for showing athletic contests.
The Heck of the Wreperus
It was a schooner of home-brew That sailed a domestic sea, And the skipper had taken his little can To get some good whiskey.
Bright were its sides as shining gold— It held a good deal, too. The cover was lost long years ago By usage worn clear through. The skipper stood beside the bar And ordered his favorite drink; But when he took it home that night, conditions than the other routes, and could make the trip in four and one-half days.
Mr. Stefansson also explained that the Arctic ocean is really a sea, being no larger than the Gulf of Mexico, with numerous islands scattered throughout. As to the climate, he said that while the winters are longer, they are no colder, and that the very uniformity makes the climate more bearable.

This Cigarette Case is only \$5.00
AS AN example of the very unusual values in cigarette cases you can find at Mappin & Webb's, we specify the one illustrated.
It is both good looking and good quality—sterling silver, highly burnished and English hall-marked. Size, closed, 3 1/8" X 2 1/4". Price, \$5.00.
Cigarette cases in fine London leather are priced from \$2.00.
